## **DETAILED ACTION**

### ***Continued Prosecution Application***

1. The request filed on 2/24/03 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/116,147 is acceptable and a CPA has been established. An action on the CPA follows.

### ***Drawings***

2. The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on 12/30/02 have been approved. A proper drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The correction to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Art Unit: 2613

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1-19 are rejected under 35 U.S.C. 102(e) as being anticipated by Puri et al (6,148,026) for the same reasons as set forth in Section 5 of the last office action, paper number 2, dated 3/16/01.

***Response to Arguments***

5. Applicant's arguments filed 2/24/03 have been fully considered but they are not persuasive.

Applicant asserts on page 4 of the Remarks that Puri et al does not disclose excluding unnecessary steps during successive encoding passes. However, as explained to Applicant's representative during a telephone interview, Figure 2A of Puri et al illustrates that video data are being sent successively through the encoder 310 while excluding the enhancement layer encoder 320 from execution during an encoding pass for which enhancement encoding is deemed optional.

In response to applicant's argument on page 4 of the Remarks that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant

Art Unit: 2613

relies (i.e., sending the video data back to the encoder for successive passes) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

### ***Conclusion***

6. All claims are drawn to the same invention claimed in the parent application prior to the filing of this Continued Prosecution Application under 37 CFR 1.53(d) and could have been finally rejected on the grounds and art of record in the next Office action. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing under 37 CFR 1.53(d). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
